

System environment

The picture below describes the system environment:

Two System Types are available: Server Hosting und Intranet Server.

- Server Hosting

Get secure v10 access to the evans WEBserver via the internet by using your browser like MS-ie, Chrome, Firefox etc.

External user get as well secure access via the internet.

- Intranet Server (inhouse)

Get v10 access on your internal server by using your browser like MS-ie, Chrome and Firefox etc.

External user gets secure access via the internet.

SERVER (Intranet Server – Inhouse)

We recommend the following server configuration:

- Intel® Core™ i7 processor running at 3,2 Ghz
- 64 Bit system
- SATA hard disk >500GB
- min. 8 GB of Random Access Memory (RAM)
- Windows Server™ 2003-R2 / 2008-R3 (incl. ASP.NET on IIS)
- Microsoft® SQL Server™ 2005 / 2008
- Microsoft-Excel® 2003 / 2007
- 10/100 Mbps / 1 Gbps network card (Ethernet)
- broadband internet access 6.000 kBit/s
